Announcement

RE: Unpaid Research Internship Program Approved

Date: May 10, 2013

An Unpaid Research Internship Program has been established to enhance the educational experience of a trainee and provide experience in clinical research, which could include interaction with human participants in a clinical or non-clinical setting. This procedure will apply to the School of Medicine and the School of Nursing. This procedure does NOT apply to the following:

- Students enrolled in an Emory University course or degree program. These individuals may volunteer or intern if allowed and approved by their Schools and Departments.
- Those volunteering in a laboratory setting. Those individuals should instead fill out the Emory University "Volunteer in Research Lab Registration Form" which can be found at:
<http://www.ehso.emory.edu/documents/forms/index.cfm>
NOTE: Emory policy prohibits non Emory students under the age of 18 in laboratory areas:
<http://policies.emory.edu/7.21>.
- Those participating solely as a clinical observer. Faculty interested in hosting an observer should follow the requirements of the hospital or clinical area in which they work.

The procedure and all forms can be found on the SOM Research website:

<http://www.med.emory.edu/research/resources/index.html>

Please contact me with any questions.
